

SHUBHAM CHAKRAWARTI

SOFTWARE ENGINEER & AI/ML ENGINEER

Bengaluru, Karnataka, India • +91 9696137126 • shubham2004.hc@gmail.com • LinkedIn • GitHub • Portfolio

Result-oriented Software Engineer and AI/ML Developer with 2 years of experience building scalable full-stack web applications and implementing machine learning solutions. Proficient in designing robust REST APIs, optimizing data processing pipelines, and deploying predictive models. Strong credentials in data analysis, visualization, and cloud-based AI integrations. Certified by IIT Madras, Google, Microsoft, and IBM.

TECHNICAL SKILLS

Programming: Python, JavaScript, TypeScript, Java, SQL, C, C++, Bash

AI & Machine Learning: TensorFlow, Keras, Scikit-Learn, NLP, Computer Vision

Data Analytics: EDA, Feature Engineering, Regression, Classification, Time Series

Frameworks & Libraries: React.js, Node.js, Express.js, Angular, Flask

Databases & Tools: MongoDB, SQL, Git, GitHub, Docker, Linux, Figma

Cloud & Security: AWS, Azure, CI/CD, Web & API Security (OWASP Top 10)

PROFESSIONAL EXPERIENCE

Deloitte | Software Engineer

Dec 2025 – Jan 2026

Bengaluru, India

- Performed comprehensive data cleaning, processing, and exploratory data analysis (EDA) using Python to extract key business insights.
- Designed and implemented interactive data visualization dashboards in Tableau and Power BI, optimizing executive reporting workflows.
- Collaborated on building data processing pipelines, improving system reliability and data flow efficiency.

JPMorgan Chase & Co. | Data Analyst

Sep 2025 – Oct 2025

Bengaluru, India

- Simulated backend-focused software development tasks, building and optimizing REST APIs and data processing frameworks in Python.
- Created responsive data visualization modules in React to display real-time financial feeds and stock price information.
- Participated in system design and optimization discussions, reducing data latency across internal endpoints by 10%.

YBI Foundation | AI/ML Intern

Oct 2024 – Feb 2025

New Delhi, India (Remote)

- Developed and evaluated deep learning LSTM models for sales and time-series forecasting, achieving a **15% increase in forecasting accuracy**.
- Built, trained, and fine-tuned predictive machine learning models (random forests, regression, classification) using Scikit-Learn.
- Conducted extensive data pre-processing, handling null values and feature engineering on real-world datasets using Pandas and Matplotlib.

KEY PROJECTS

Hiring Assistant Chatbot | React, Express, NLP, Generative AI

[Live Demo](#)

- Design an AI-powered conversational screening agent that dynamically interviews candidates based on their technical stacks.
- Integrated intelligent NLP pipelines to evaluate candidate answers and generate automated technical feedback in real time.

Sonoma AI Multimodal Platform | React, Express, Node.js, TensorFlow

[Live Demo](#)

- Build a full-stack media platform supporting automated audio transcription and video caption generation.
- Optimized cloud storage integrations and AI inference times, reducing media processing latency by 20%.

Google Maps Clone | React, Leaflet, Mapbox API, HTML5/CSS3

[Live Demo](#)

- Developed an interactive web map clone showcasing geocoding, autocomplete location search, and multi-stop route plotting.
- Implemented responsive location tracking and custom interactive markers leveraging Mapbox and Geolocation APIs.

EDUCATION

CERTIFICATIONS

IIT Madras: Internet of Things, Computer Networks, TOC	Google: Generative AI, Data Analytics Certificate
Microsoft: AI Fundamentals, Machine Learning	IBM: Data Analyst Professional Certificate

EXTRACURRICULARS & LANGUAGES

Activities: PuHackathon 2025, Stylus Event Management, active member of coding and design clubs.	Languages: English (fluent), Hindi (native), Marathi (conversational).
